LEED INFORMATION

PLANT ADDRESS
Clarus Glassboards, LLC.
7537 Jack Newell Blvd. N.
Fort Worth, TX 76118

KEY COMPONENT INFORMATION

GLASS

- 0% Post-Consumer Recycled content
- Contains 20% or more Pre-consumer recycled glass (glass reused in the manufacturing process, or "cullet" glass).
    - It is difficult to claim glass as meeting the recycled content requirements for a LEED, or other green certified project as the reutilized cullet is not intended for discard or disposal
- 100% Recyclable as a post-consumer product
- Glass is produced and shipped from Pennsylvania. Glass is cut, fabricated, and assembled in Fort Worth, TX
- Glass is has an indefinite life-cycle, it does not wear out, stain, or ghost. When properly cared for glass can last indefinitely

GALVANIZED STEEL – BACKING FOR MAGNETIC BOARDS

- Typically this steel will contain 25% post-consumer content and 2% post-industrial content. However, lots vary from our distributor and these recycled content percentages cannot be substantiated when the product is coming from international sources.
- 100% Recyclable as a post-consumer product
- Steel is cut, machined, fabricated, and assembled in Fort Worth, TX
- Galvanized steel has an indefinite life-cycle

ALUMINUM – WALL MOUNTING SYSTEM

- Contains 85% post-consumer content
- 100% recyclable

CLARUS' COMMITMENT TO SUSTAINABILITY:

Clarus is committed to the creation of sustainable products and responsible manufacturing. We honor and maintain an active recycling program for glass and metals within our manufacturing process, thus minimizing our waste stream, and preventing pollution.

Clarus Glass Dry-Erase Systems provide a superior alternative to toxic and short life-cycle materials found in other dry-erase products. Clarus Glassboard glass provides an indefinite life-cycle of stain free, non-ghosting, and easily maintainable writable surfaces.
