

District Support Services – Special Education

ASA offers customizable consultation and support services to assist school district leaders with Special Education and grants management leadership. Through expert consultants, technical assistance can be provided to help districts in the following areas.

- Leadership development, coaching and mentoring for new Special Education district leaders
- Review, refinement and/or development of district Special Education policies, practices and procedures
- Review, refinement and/or development of district Special Education monitoring procedures
- Review, refinement and/or development of Comprehensive Needs Assessments for School Improvement
- Federal/state grants management support
- Strategic planning consultation, including support for alignment of Special Education services to district goals, and strategies for student subgroup achievement
- Guidance for aligning curricular and supplemental materials for Special Education programs with State Academic Standards and district curriculum
- Customized consultation and support to meet your needs

For more information or to receive a proposal for any of these services, please contact:
